

INDEX

In order to accommodate extra songs in the words edition of this songbook while still maintaining strict alphabetical sequence for easy use in praise and worship meetings, it has been necessary to adopt different numbering sequences for the music and words editions.

For easy reference both numbers are shown against the songs themselves, and also in this index. A dash indicates where a song is not included in the music edition.

In this index, titles where different from first lines are shown in *italics*.

Song no. Music	Song no. Words	Song no. Music	Song no. Words
